Code of Conduct

(needed for large remote meetings & taken from APS)

- Let the speaker finish talks: You can “raise hands” during the talks, and the Chair’s Zoom Assistant will call out your name at the end of the talk for questions and comments in the sequence hands were raised. The chair will decide when to stop taking questions.
- You can also discuss amongst yourselves on Chats & use Gather Town to invite speakers or other conference participants for longer debates or discussions.
 - Gather Town will be available to you **24-hrs on all days**.
- **Attendees:** Please keep all discussions respectful, please respect the Session Chair’s decision to move on to next talk.
- **Speakers:** please respect your presentation time-line(s) so that there IS time for discussions.
