TRACK CO-ORDINATOR'S GUIDE

1.1 Track Co-ordinator

As a Track Co-ordinator you are able to propose the acceptance or rejection of abstracts within your track. You are given the Track Co-ordinator's access by the Conference Manager.

You can access your tracks by selecting *My tracks* or *Manage my tracks* from the conference homepage menu under *My conference* or *Scientific Programme*. This will take you to the list of tracks you are co-ordinating or straight into your track if you co-ordinate only one track.

1.2 Track Co-ordinating

Once in the My tracks area you can click on *Edit* to the right of the track name to access the co-ordination area of that track.

1.2.1 Main Tab

From here, you can change the code, title and description of the track.

Track: Track 1

Go back to: [Track list](#)

The screenshot shows a web interface with a navigation bar containing four tabs: 'Main', 'Coordination control', 'Abstracts', and 'Contributions'. The 'Main' tab is selected. Below the tabs, there are three rows of information: 'Code' (empty), 'Title' (Track 1), and 'Description' (This track is about nuclear physics). To the right of the description is a 'modify' button.

1.2.2 Coordination Control Tab

This is where you add/remove users allowed to coordinate the track. **Note:** this tab is only available to you if you are a manager!

Track: Track 1

Go back to: [Track list](#)

The screenshot shows the 'Coordination control' tab selected in the navigation bar. The main content area is titled 'Users allowed to coordinate this track'. Below the title, there is a list of users. One user is listed: 'COSTACHE, Anamaria (anamaria.costache@cern.ch)'. To the right of the user name are two icons: a yellow star and a red 'X'. Below the list is an 'Add user to list' button.

1.2.3 Abstracts Tab

The Abstracts tab lists all the abstracts that have been submitted for your track and their status.

Track: **Data Mining**

ID	Title	Type	Status	Acc. Type	Submission date
3	My new test	--not specified--	submitted		22 August 2011

Participant list Export to:

[Go to all abstracts](#)

If you click on an abstract's name you will be taken to the Abstract's Management area. From here you can view the abstract's details and propose whether you want to accept, reject, mark as duplicated, or suggest the abstract for another track.

Main Tab

This is where you can modify the main details of the abstract, and also see some information as for instance submitter, status, etc. It is also from here where a track coordinator can propose the abstract to be accepted, rejected, for another track and mark as duplicated (see next image).
